**WILSON AGAIN TO  
BE A CANDIDATE  
FOR PRESIDENCY****Formally Enters the Race  
in Letter to Ohio Sec-  
retary of State.****GRANTS USE OF HIS NAME****Primary Law in That State Requires  
Consent of Candidate Supported  
by Those Who Seek to be National  
Delegates; Up to People, He Says.**

By Associated Press.  
WASHINGTON, Feb. 14.—President Wilson today formally has entered the race for re-nomination.

In a letter to the Secretary of State of Ohio the President stated that he was unwilling to enter a contest for the nomination but was ready to permit the use of his name in the coming primary in order that the Democrats of Ohio might make known their preference.

The President made known his position in order to comply with the Ohio primary law, which requires candidates for delegates to the party convention to make known their first and second choices before February 25, and also requires that the candidates for delegates have the consent of their choice to use his name.

The President was formally notified of the requirements of the law last week and today he wrote to Charles G. Hildner, secretary of state for Ohio as follows:

"I am enclosing to you a letter, the occasion of which I dare say will be quite obvious. I have been requested to indicate my willingness to have my name used."

"Accordingly take the liberty of sending out the enclosed letter as formal permission under the statute."

The letter the President enclosed was as follows:

"While I am entirely unwilling to enter into any contest for the Presidential nomination of the Democratic party, I am willing to permit the use of my name in the coming primary in Ohio in order that the Democrats of Ohio may make known their preference in regard to that nomination."

"In order therefore to comply with the technical requirements of the statute of the state of Ohio, I hereby consent to the use of my name as a candidate for the Presidency by any candidate who seeks to be elected a delegate to the national Democratic convention which is to assemble in June next."

This was the first time the President has consented formally to have his name used in connection with the nomination. His name has been placed on primary ballots in several states, however, through the activities of friends.

The President takes the position that the voters will have to determine whether he will make the race for the Presidency in 1916 as the Democratic candidate. In effect, a number to J. Mitchell Palmer, then a representative from Pennsylvania, before his inauguration, Mr. Wilson made it plain that he would not be a candidate again if the Democratic voters desired it.

Political advisers and friends of the President have taken for months for months that he would be the nominee of his party, and have made their plans accordingly. The National Democratic Committee has prepared all the campaign material with the idea that he would be the party candidate.

The formal announcement is expected by Democratic leaders to clarify the political situation throughout the country. Supporters of the President say today, would now be able to work for him more openly.

**GLOVE MARKS SENTENCES.**  
Members of Bowles' Gang Will Pay Penalty for Trading With Germany.

By Associated Press.  
LONDON, Feb. 14.—At the Old Bailey today, William Gardner, 34, was fined 50 pounds. William Gardner was sentenced to 12 months' imprisonment and Stanley Gardner, 34, to four months' imprisonment on their withdrawing their defense and pleading guilty to the charge of obtaining goods from Germany through their New York branch and trading in such goods in contravention of the trading with the enemy act.

The three men are partners of Bowles Brothers & Company, glove manufacturers.

**SEVER MISSING CHIEF.**  
Comes Still Missing. Banquet Guests Have Recovered.

By Associated Press.  
CHICAGO, Feb. 14.—A number of letters written by John Cronan, a chef, who is suspected of placing the poison in the soup served at the banquet in honor of Archibald Leitch, a prominent Chicagoan, were today in the hands of the police today in an effort to trace of Cronan's hiding place.

All of the hundred distinguished guests at the banquet who were made ill by the poison have fully recovered, it was announced.

**One Dead, Another Unconscious  
When Gas Fails at Perryopolis**

One man is dead and another is in a serious condition as the result of sleeping in a gas-filled storehouse at Perryopolis. The dead man is Albert Corey, while Nicholas George, one of the proprietors of the store, was not recovered.

The store was owned by George and A. Farrah, and because of recent robbery it has been the custom of one of them to sleep in the store at night. Last night it was George's turn. Corey asked to spend the night with him and the request was granted.

About 10 o'clock the men retired to sleep on cots in the rear of the store. Because of the intense cold the men were left burning in full force. It is believed the pressure went down during the night, extinguishing the blaze.

Two Cruisers, One British, Other French, Sent Down

Entire Powers Admit the Loss of the Fighting Units; England Calls Out Single Men.

LONDON, Feb. 14.—The British cruiser *Arctura* struck a mine today off the coast of England, according to a statement issued by the British official press bureau. It is feared, the statement adds, the vessel will be a total loss.

About 10 men were lost in the sinking of the vessel.

PARIS, Feb. 14.—Reports of the loss of the French cruiser *Arctura*, which was reported to have been sunk by a submarine which was patrolling the Syrian coast, were confirmed today.

According to information received at the French ministry of marine, a rate bearing one five sailor and the military service act was posted today.

The call to the colors will have the effect of enrolling all single men of military age who have not been exempted.

Single men who did not attest under the law of Derby's plan are subject to compulsory service, with certain exceptions of exemptions under the terms of the act passed at the last session of parliament, which went into effect February 10.

**TURKISH MASS IN MESOPOTAMIA.**  
LONDON, Feb. 14.—A dispatch from Athens says it is reported there that Turkish forces in Mesopotamia are being sent to Mesopotamia. Troops released from the Danube are already on their way.

Thinner and smaller contingents have also left from there.

**MORE ITALIAN ACTIVITY.**  
LONDON, Feb. 14.—Increasing activity in the Italian front was reported today. An Exchange Telegraph dispatch filed yesterday says that following the arrival of French and British reinforcements at Salento the Italian army is proceeding up the railway concentrating troops as far forward as the Albanian frontier.

The Italian army are said to have occupied one-third of Albania.

**AUSTRIAN NOTICE RECEIVED.**  
WASHINGTON, Feb. 14.—Austria's formal notification of her intention to attack without warning armed merchant ships in the Adriatic was received today by the State Department.

It is substantially the same as that received from Germany.

Secretary Lansing said no decision had been reached on the attitude of the United States. He had read the German memorandum carefully, he said, and found it agreed with the published description contained in recent news dispatches from Berlin.

**GERMANS REPORT GAINS.**  
BERLIN, Feb. 14.—Important gains for the Germans in two engagements were reported today by the war office. Northward of Tullin position over a front of 700 yards were captured, seven officers and 300 men being made prisoners. In the region of Anseret, near the French frontier, Allied positions 400 yards long were taken.

**ALL RAIL ON FLAME.**  
LONDON, Feb. 14.—A British dispatch from Milan says six persons were killed and several injured by bombs dropped from aeroplanes which appeared over the city this morning. The dispatch says several aeroplanes took part in the raid, which was made at 3 A. M.

Anti-aircraft guns opened a heavy fusillade and the aeroplanes disappeared. The material damage was small. The casualties were all among civilians.

Milan is the second largest city of Italy with a population of about 500,000. It has some of the finest churches of Europe.

**NEW ORDINANCE TO  
REQUIRE A BETTER  
GRADE OF PLUMBING****Inspection of All Sanitary  
and Gas Piping Planned  
By M. B. Pryce****TO BE INTRODUCED TONIGHT**

Inspection of buildings in the city by the fire department starts today. The new ordinance to be introduced and approved by the city council tonight.

Discovery for many cases of bad plumbing and gas piping in buildings of the city by the fire department in its inspection has convinced the director of public safety, M. B. Pryce, of the necessity for plumbing inspection and an ordinance covering this will be introduced at the meeting of council tonight.

The ordinance will set up new and rigid requirements for all kinds of plumbing, gas piping, house drainage and ventilation of house pipes and sewerage. It provides for the appointment of a competent plumbing inspector and for the examination and licensing of all master and journeyman plumbers.

Master plumbers will be required to take out a license costing \$5 after examination. The license will be valid for one year. It will be renewed on payment of \$5.

**STARS IN CONJUNCTION****Many See Brilliant Spectacles of Jupiter and Venus.**

Two stars in the western sky, Jupiter and Venus, attracted much attention last evening. They were close together, and exceedingly bright.

The phenomenon is called the conjunction of Jupiter and Venus, which occurs several times a year. The two stars are in such a line from the earth that they seem very close, but are actually very far apart.

**Dynamite Caps Fail to Explode  
When Man is Ground Under Train**

When Isaac Lohr, 50, of Stauffer, was run down and killed by a coal train at United street Friday night, seven boxes of dynamite caps in his pockets failed to explode, though they were bent and battered by the pressure of the train.

Lohr's body was found about 10 o'clock Sunday morning by a track cleaner. Both legs had been cut off, part of his left hand was severed and the body and head were bruised and lacerated.

At first Lohr was supposed to be dead, but when \$14.21 was found in the man's pockets, this theory was disproved. It is believed that Lohr went to sleep on the tracks and was killed when a coal train ran over him.

Seven boxes of dynamite caps were found near the body. Some of the boxes had been opened and the caps crushed but none had exploded. The caps exploded at 50 pounds pressure.

Lohr had eaten his supper with his sister-in-law, Mrs. Cochran at Stauffer. The sister-in-law had not to go out but he insisted upon starting out for his brother Samuel's residence, near United. On the way he was run down and killed.

Lohr was one of the best coal diggers in the region. He served with the Fighting Tenth in the Philippines in 1899 and the death adds another to the string of accidents in which veterans of this regiment have met death since their return to the United States.

**MAN FOUND UNCONSCIOUS ON  
COKE YARD; STIFF FROM COLD**

Charles Louden, believed to have fractured skull in Fall, Taken to the Hospital.

Unconscious, stiff from cold and apparently having suffered a fracture of skull, Charles Louden was found on the coke yards at Leobanburg No. 1, but lived at Leobanburg No. 2. It is assumed by the hospital authorities and those who found him, that he had stumbled over the rail of the coke yard and was injured by the fall. His face was cut and bruised, and there were evidences of a fractured skull.

Louden is 33 years old. He was at one time a member of Company D of the 10th Cavalry, and was a street car conductor for a number of years.

**BIG OIL PLANT**  
Atlantic Refining Company Will Enlarge Its Plant at Leobanburg.

The Atlantic Refining Company has completed plans for enlarging its distributing plant located on Fourth street, West Side. A foreman has already started work on the new additions which have been begun this morning and it is not expected that the new plant will be ready for operation until about the middle of next month.

The new plant will have a capacity of 100,000 barrels a day. It will have two tanks on the West Side but no other buildings, keeping the tanks at their present location.

**MURDER CHARGE IS SECOND  
AGAINST NEGRO, SHERIFF SAYS****Illinois Officer Will Remain Here  
Until Extradition Papers Arrive.**

Sheriff Otto Shirk of Adams county, Ill., arrived in Connellsville yesterday afternoon to take charge of William Johnson alias William Webb, the negro who is in jail at Uniontown on a charge of killing another colored man at Metropolis, Ill., about 18 months ago. He will remain in town until his extradition papers for his prisoner.

Shirk said that Johnson was previously tried on another charge, but that he was acquitted. He is at present accused of shooting another negro's head off with a shotgun after a quarrel over a woman. Johnson was shot from cold when discovered and apparently had suffered from exposure, although it is not believed he had been there long before he was discovered.

Louden is 33 years old. He was at one time a member of Company D of the 10th Cavalry, and was a street car conductor for a number of years.

**WILKINS KILLS HIMSELF**  
Shoots Himself While on Visit to His Native Community.

In a fit of despondency, George A. Wilkins of Hudson county, Illinois, shot himself through the head in a stable at the home of his sister, Mrs. Ovilla Fitzgibbon, at Leobanburg, on Sunday afternoon. He lingered until 7:30 o'clock that evening with a bullet wound in his head. He did not regain consciousness and died at 10 o'clock.

Mr. Wilkins came east about two weeks ago to visit his brother and sister at Leobanburg. He is said to have been over his troubles and his relatives became alarmed. Eluding them about 2:30 Sunday afternoon, he went to a stable at the rear of the Fitzgibbon home and shot a bullet through his head. The missile entered the forehead and passed through the back of his head. He was found a few minutes later by his brother, James Wilkins.

Deceased was a native of Addison township, a son of Mr. and Mrs. Ann Wilkins. He went west about 30 years ago and located in Illinois. He was about 50 years old and single.

**THEY SWEEP SNOW**  
Lodgers and Prisoners at City Jail are Put to Work.

Following the heavy snowfall of yesterday morning, lodgers in the basement of city hall and some of the 21 prisoners in the lockup were put to work shoveling snow under Street Commissioner William McCormick.

About a dozen men were kept busy most of the morning, much to the disgust of the prisoners. Only one man came to city hall to sleep on Sunday night, notwithstanding that it was the coldest of the winter. The possibility of being compelled to shovel snow in return for a bed did not appear to the hobnob.

One of the men set to work with a snow shovel around the city hall. He said that his house was badly damaged in the cyclone that struck Union about two years ago. After rebuilding it, he said, it was burned down, and when he left home to seek work here he could get no work.

Fire in Hardware Store.  
Woodwork burning in the rear of the Anderson-Loucks Hardware Company's store at noon today did but little damage to the building. An alarm was sent in to the fire department and chemicals were used to extinguish the blaze. The water pipe in the rear of the store had become frozen up and plumbers in using blow torch to thaw them out set fire to the building. There was lots of smoke, but only a little blaze.

Greenwood Walks.  
Malcolm Greenwood, 34, a good turn for Greenwood yesterday morning. With the snow laying many inches deep on the sidewalks he was constrained, as a shaped snow pile, about as wide as the sidewalk. Hitching a horse to this sled he cleared the way for the pedestrians. The sled was taken over most of the streets in Greenwood.

**NO VALENTINE GIFTS**  
Postmaster General Says Postmaster Plums Will be Shaded Out Later.

By Associated Press.  
WASHINGTON, Feb. 14.—Postmaster General Charles D. Smith today said that he would not allow Valentine's gifts to be sent in New York, Chicago and Kansas City on St. Valentine's day, because he predicted three weeks ago, because the president had been too busy with other affairs.

The promised appointments probably will be made within a week.

**MERCURY DROPS TO  
LOW LEVELS AFTER  
HEAVY SNOWSTORM****Mountain Thermometers Re-  
cord 24 Degrees Be-  
low Zero.****FOUR BELOW OFFICIAL HERE**

Coldest Night Since January 12, 1912.  
Mikes Whole Region Shiver; Indian Creek Valley Retains Palm as the Most Fright Zone of This District.

A cold wave which followed the heaviest snowfall of the season sent the mercury tumbling last night to the lowest levels reached since the last freeze of January 12, 1912. According to reports from all over the county, the temperature ranged from 4 degrees below zero in Connellsville to 24 below at Jones Mills.

Allowing for variations in thermometers, the average was close to 10 below zero all over the county. According to reports that were received here, the following low marks were established for the winter:

Connellsville	4
Brownsville	6
Uniontown	6
Dunbar	6
Dawson	10
Smithfield	10
Chillicothe	10
Dickerson Run	12
Everson	12
Scottdale	17
Champion	20
Jones Mills	24

Within 48 hours the mercury tumbled some 65 degrees in Connellsville. Saturday the weather was like spring, and an all-day rain brought on a flood stage in the Youghiogheny river.

Early yesterday morning the rain turned to snow and by the time the town woke up at daylight there was from seven to eight inches on the level, and several feet where it drifted.

Yesterday was an ideal winter day, clear and cold. Last night the mercury began to drop, and without any warning a mantle of frost enveloped the region, bringing a new record for the season.

As usual the Indian Creek Valley came to the fore with the coldest weather, 24 degrees below being registered here. At Jones Mills, another record was set, the thermometer at 24 below.

Many water pipes were frozen in these cold hours and old timers did not expect such a drop in the mercury and failed to take the safety first precaution of turning off the water. The plumbers were kept busy all day.

The heavy snowfall wrought serious results with the Baltimore & Ohio railroad. The heavy snow on the tracks and branch landings combined with the snow to hold up the trains. None of these had been on time since Saturday evening.

Train No. 69 which leaves Fairmont at 11:30 in the evening, did not arrive here until 12 o'clock yesterday afternoon. On account of the big delay, train No. 1, due here at 7:30 in the morning, combined with No. 69 and the two trains came in one.

On the Sheepshead and Okechela held up these trains. More slides and snow held No. 69 up last night also, the train not getting here until 9 o'clock this morning. No. 1 was an hour behind schedule.

Last evening a rock held No. 69 up at Uniontown. It took some time to get the big stone from the tracks and the train was thirty minutes late here.

This morning the Duquesne Limited did not arrive here until about 9:30 o'clock. It was necessary to have the rear coaches out and to replace a broken knuckle. To do this took about 15 minutes. Snow on the west end caused No. 6 to be an hour late arriving here.

Two girls, one from South Arch street and the other from East Connellsville, were nearly frozen coming to school this morning and the high school office was converted into an emergency hospital. Both children, seven year old daughter of William Buskirk of South Arch street, a pupil in Grade 4, Fourth Ward, collapsed when she got to school. Her teacher, Miss Hazel Johnson, attended her and later she was taken to Superintendent Ashe's office. She had just recovered from pneumonia and was in a weakened condition. After waiting 30 minutes for a car, Miss Irene Clifford, 15, a freshman in high school, became so cold that she suffered severely and had to be given treatment by her teachers. Doctors were summoned to attend the girls but their services were not necessary.

## EDDIE WIMLER TO FACE A FORMIDABLE OPPONENT TUESDAY

Johnny Wray is Expected to Make West Side Boy Do His Best.

### THEY WILL GO TEN ROUNDS

With Two Six-Round Preliminaries the West Side Hall is Expected to be Jammed; Promoters Declare the Card is Best Ever Offered Here.

Johnny Wray, Pittsburgh's champion featherweight who is to fight 10 rounds with Eddie Wimler, prize of the West Side, in Shavlin Hall Tuesday night, shaded his old rival, Ed de Sander of Lawrenceville at Chertol on Saturday night before a crowd of 1,500 fans. The two boys went six fast rounds but Wray because of his ring generalship was picked as the winner by the sporting writers. Wimler will have to travel some in this bout but he is confident of coming out on top in a 10 round encounter.

Indications are that the show will draw a larger crowd than the first one two weeks ago, which was so successful the promoters were encouraged to book some exceptionally good talent for future exhibitions. A 10 round wind-up and two six round preliminaries furnish just the right amount of boxing to satisfy the fans, hence the second show should draw well.

The semi-wind-up will be between Chalky Winder, who made such a good impression at the last show, and E. C. Haggerty of Pittsburgh.

The first bout will bring together Harry Brown of New Kensington and Jack Flynn of Jeannette.

The bouts will begin at 9 o'clock sharp and will be over in time for out of town fans to catch the last cars for their homes.

### SCOTTDALE WINS

High School Team Beats Dunbar Township Standing Defeat.

The Dunbar township high school basketball team was given a wallop at the hands of the Scottsdale high school team at Lehighville Saturday night, the score being 45-23. The game was a good one but Dunbar township could do nothing with the Western-sent county boys. Some time ago the coldest boys defeated the mill towners but Saturday evening the Western-sent county boys took the laurels.

A change in the lineup for Scottsdale caused Dunbar's defeat. "Puck" Lee, the tallest boy in Scottsdale, was put in at center and not the tip all the time, giving Scottsdale a good chance

to work out signals and "Puck" Carroll, the speedy forward, helped lots. These two literally won the game for Scottsdale high. The game was played under protest by Lehighville on account of Lee being in the lineup. It was claimed that he played professional basketball jumping center for the Homestead team on one occasion but a letter from the manager of the team said that he did not receive pay for playing, only his expenses. Lee proved his worth, too. When one Scottsdale man would shoot and miss, Lee would jump and catch the ball coming off the banking board and proceed to drop it through the basket.

The game was roughly played and the feeling between the teams broke out once when Lehighville of Scottsdale and O'Laughlin of Lehighville came to blows. Both were put out of the game by referee Wall and a double foul called. At an earlier period in the game O'Laughlin was knocked down under Scottsdale's attack and Lee in a scuffle walked on him, putting the Lehighville player out of the game for several minutes.

The Dunbar township team succeeded in passing when they had the ball, an evidence of more practice together than Scottsdale has had. Henry was the only one that played a fair game, however. He got four baskets, 11 free ones, and not another member of the team put the ball through.

The game was refereed by Ed Wall of Scottsdale. Considering the conditions under which the game was played, he made a good job of it. Wall is a referee in the West Penn League. He will toss the ball Friday evening at Lehighville when Dunbar township will play the West Newton high at 6:30. Near the last of this month he has a game to referee between Uniontown and Greensburg teams.

The car of rosters that was to accompany Scottsdale to the game failed to show up but Cheer Leader Edward Lenny had his colors on the job. They did not lose their enthusiasm during the entire game. The lineup:

DUNBAR—23 SCOTTDALE—45  
O'Laughlin, forward, Carroll, forward, Henry, forward, Munaw, forward, Hixon, center, Lee, center, McGee, guard, Kelly, guard, Laughey, forward, Field goals—Henry 8, Lee 8, Henry 4, Carroll 2, Hixon, 1, Lee 1, out of 25; Carroll 9 out of 17. Substitutions—Miller for Laughey; Gallagher for O'Laughlin. Referee—Wall.

A preliminary was played before the main game between the second team of the Dunbar township high school and Dunbar high, the former team winning 25-9. Dunbar lost one field goal and seven fouls. The lineup:

DUNBAR—21, DUNBAR HIGH—11  
Hixon, forward, Frost, forward, Vanokelle, forward, Bowman, forward, Harper, center, Miller, forward, Randolph, guard, Mitchell, guard, Obland, guard, Tony, guard, Field goals—Hixon 5, Vanokelle 2, Harper 1, Randolph, Miller, Field goals—Harper 5 out of 15; Bowman 7 out of 17. Referee—Wall.

"Pape's Diapepsin is the Quickest and Surest Stomach Relief."

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you hatch gas and eructate sour, undigested food or have a feeling of dizziness, heartburn, flatulence, nausea, and taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent boxes of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the toilet with a healthy appetite but which will please you more, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or purge pills for flatulence or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.—Adv.

# How to Know Where to Buy Furniture and Rugs

Find out which retail furniture dealer in your town has been chosen by the biggest and best manufacturers to act as their agent in this town. No matter whether you live North, East, West or South, this is the one safe way to shop.

In Western Pennsylvania the Aaron store has been selected as agent—not by only a few of the really great manufacturers but by ALL of the really great ones. It is a remarkable demonstration because agents are chosen with extreme care.

The Aaron store is chosen because it is a responsible institution; not a fly-by-night. It not only guarantees everything it sells but it does a business TEN TIMES GREATER IN VOLUME than any other furniture store in the county.

This huge volume places the Aaron store in the position of being able to do its buying in CARLOAD LOTS; which, in turn, results in lowest retail prices on highest quality goods. This is an ironclad rule of business, a thing that you should take advantage of.

Add to this fact that your credit is good here; that our store is convenient in every detail; that every department is in charge of its own special expert; that our staff is comprised of born furniture men—and you see why the Aaron store is "ideal."

We never stoop to exaggerations in our advertising. We deal plainly and squarely ALL the time. The great manufacturers know this and that's why they have ALL chosen us as their representative in this territory. Take the manufacturers' tip. It's always safest!

### RAILROADS BUY FREELY

but Mills Are Short on Plates; Pig Iron Picking Up a Bit.

The Iron Trade Review says: "Three features stand out strongly amid a multitude of recent events in the iron and steel market. Ordinary contract prices for plates, shapes and bars have been advanced \$2 a ton, bringing the two latter items to 26, Pittsburgh, and plates to 24 1/2, for such shipment as the mill is able to make, mainly third quarter or beyond.

Railroads are buying freely, and eastern mills are confronted with inquiries for our plates and shapes aggregating 50,000 tons. Much of this tonnage cannot be accepted at present.

Rapid transit lines in New York are inquiring for 15,000 tons of rails.

The Lukens Iron & Steel Company has purchased nearly 75,000 tons of basic pig iron at \$15.50, delivered.

There is also considerable sub-surface activity in the pig iron market, particularly in the Buffalo district.

Iron Furnace in Japan.

Many new enterprises are at a standstill in Japan because a famine in iron and steel. The government has been requested to postpone government work requiring iron and steel and sell the material to private interests.

Ore Miners Get Advance.

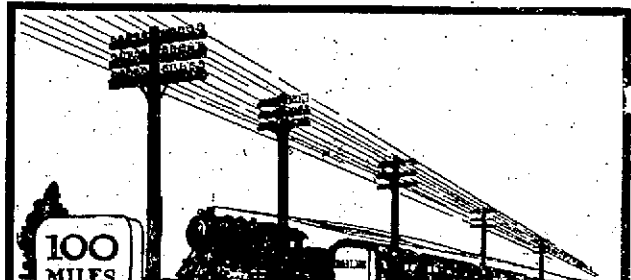

The iron ore miners of Michigan have received an advance of 10% in wages, establishing the highest rates in years.

AS WE GROW OLDER

our minds are quite as active as in former years but our strength does not respond when we need it most; perhaps the kidneys are weak, the liver torpid, rheumatic pains or stiffened joints beset us, and we cannot easily throw off the colds that winter brings.

What we need is the rich cod liver oil in Scott's Emulsion to renew the blood and carry strength to every organ of the body, while its glycerine soothes the respiratory tract, and its hypophosphites strengthen the excitable nerves.

Scott's Emulsion is a scientific food, of unusual benefit to those past fifty years—particularly during the colder seasons, it imparts warmth and creates strength. One bottle will prove its worth. No alcohol or harmful drugs. Scott & Bowne, New York, N. Y. 15-16

## RAILROAD REGULATION.

The statement is made in railroad circles that railroad regulation has stopped railroad development. This is true in a limited sense. There is less railroad construction than formerly, and especially are there fewer new railroad enterprises.

Railroad improvements continue, some of them on a large scale, but they are being made by successful railroads like the Pennsylvania, which having spent millions for New York subway terminals announces that it will spend more millions for a New York hotel in connection with its magnificent New York passenger station. The Baltimore & Ohio announces that it will spend something less than a million in building new lines in Somerset county to develop new coal fields. But we do not hear of any important new railroads being chartered, nor of any speculative extensions of old lines.

In the larger and truer sense the introductory statement is correct, and it is high time to lose the stranglehold of popular government on the throat of the nation's great transportation service and let it breathe freely or at least naturally once more. This is a matter which interests the whole country in a greater degree than is generally imagined. The number of people dependent upon the railroads is amazing.

The railroads once ruled with a rod of iron, but they have had their lesson, and it has been a severe one. They are in some sense like the fallen power that had the golden eggs, and as such it is not wise to choke them to death, certainly not for the purpose of gratifying a mere sentiment against large combinations of capital. The bigger the railroad's capital the more useful the railroad usually is to the public.

## LIQUOR MONEY IN POLITICS.

The News admits that the Democrats have profited by campaign contributions levied upon the liquor interest, but that does not detract from the fact in its estimation that such contributions to the Republican campaign fund are all wrong, or as our esteemed contemporary elegantly expresses it, "detrimental to the official life of the state."

The News is at liberty to argue this matter around and around and around going as far as it likes. The Courier has only to request that no unwarranted liberties be taken with its position. Careful investigation will disclose the fact, we think, that this paper has never advocated, endorsed or defended the practice of paying campaign contributions upon the liquor interest or of any other interest, though it has recognized the right of every individual and every interest to contribute to the extent of his or their desires.

It is possible that the Democratic party might as well refuse to refuse contributions from liquor sources, but we doubt it. The Democratic party managers might possibly subscribe to the proposition. The News that such contributions are "detrimental to the official life of the state," but they would more probably regard them as heaven-sent showers of political war and let it go at that.

We base this opinion upon their action in the past if they ever turned down any liquor money we never heard of it. It is possible that the Democratic party has reformed, but it will have to show us.

## THE COMMISSION CROP.

The creation of commissions has become a thriving industry at Washington. Recognizing their own inability to govern the country the Democrats in Congress have the fatuous belief that in the commission idea they have found a sort of combined governmental tool that will automatically perform a multiplicity of operations with facility and dispatch. Hence the wondrous growth of commissions.

Their increase does not take place, however, without objection from the more experienced and sane members of Congress who realize the futility if not the folly of some of the bodies organized in the name of commissions. When a proposition to add to their number was up for consideration some days ago Congressman Bennett of New York uttered a mildly sarcastic protest against their continued multiplication. He declared that it took two commissioners to get a bath; that one set of commissioners inspected his breakfast milk while another certified his food; that commissioners regulated the elevator, located the news stand and blessed the trains.

The only thing a man cannot do without the help or interference of a commission is to kiss his wife goodbye, and even in New Jersey Democratic commissioners are beginning to interfere with this inalienable right of the married man.

The Indiana quarry mine explosion is one of the most serious in recent years. It reports he true 25 miners are dead. The coal company has assumed its own compensation insurance and will have a stiff bill to pay in consequence. It did not expect any such visitation of wholesale disaster, of course, but in the business of coal mining, in spite of the utmost care and the careful exploitation of the doctrine of safety first, nature will burst forth and defy all the barriers set up by puny man.

## VALENTINE DAY.

Saint Valentine blew in on a bunch of zero weather. It was an unsightly not with a strong tendency to chill tender sentiments that breathe flowers and birds and springtime.

But Valentine Day is made of sterner stuff. It has been appropriated by the children after having been practically abandoned by the grown-ups, and the former have shown themselves perfectly capable of handling it. They have made the Valentine business of former years look like thirty cents.

The modern Valentine is not all of the course and comic character once presumed to be addicted by the small boy exclusively. The juvenile mind has traveled far on the road to tender sentiment if his Valentines be any indication.

In the name of the small maid and the old maid, we bid Saint Valentine a hearty welcome.

The capture in the Connelville coke region of another murderer who has been living here for the past year does not mean that the region is a center of crime, but that it is a center of industry where all manner of men who work naturally good and bad during the past year employers have not asked their workmen for certificates of character before giving them jobs.

A building boom is predicted in Connelville this summer. No doubt of it. A number of the buildings are already in sight.

The by-product coke manufacturers have determined to advertise. They will especially exploit the merits of their coke as a fuel for all purposes from domestic to furnace use. There's a pointer for Connelville coke operators, especially those who have not hitherto believed in advertising. The by-product manufacturers claim superior coke, and they are tending superior methods of making sale of it.

The export coal and coke business is excellent so far as orders are concerned, but it lacks sadly in movement on both land and water.

The liberal manner in which the employees of the United States Steel Corporation take advantage of the liberal terms of stock subscription offered them by their employing corporation indicate that the workmen have faith in their works.

Canada is on the verge of nervous prostration. It's ailing German things.

This persistent convulsion of nature suggests the notion that we are passing through a period of unrest which may account for war and upheavals of every character, including the accident of Democratic success in 1912.

For once the Kitchin government at Washington is not in accord with the administration.

The Connelville coke trade is 85% auctioneer, that is it has the proportion of its ovens fired without feeling certain whether it is going to operate them six days every week or not, but with every willingness to do so if labor and car supplies permit.

The author of "David Green and the Flying Machine," lived to see the darn thing work.

The Republican primary election in West Virginia will be wide open and its results ought to be entirely acceptable to all fair-minded and loyal Republicans.

The Germans are citing us some Civil War examples which are embarrassing to a nation now pronouncing highly civilized warfare. Our war was aud to have been "hell."

This wintry blast is reported to have come out of the Ohio valley. One would never have suspected it.

The Federal Trade Commission has been asked to define "unfair competition." If the definition is accepted by the business world the commission will be at liberty to hang up its hat and ask for an increase in salary.

Saving the nation is getting to be a regular business at Washington.

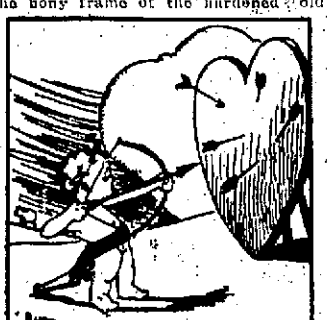

**Love**  
 By GEORGE FITCH.  
 Author of "At Good Old Slivash."

The poets have been trying to tell us what love is for 4000 years, but they have made such a hash of it that even today thousands of people can't tell the difference between love and a business opportunity until after they are married.

Love is a peculiarly squamous condition of the head produced by an appetite in the heart, enhancing it to many times its former capacity, but what it does is the mind is wonderful to contemplate. Under the influence of love, we see in a week's clerk buying \$1 bunches of violets, strong and fearless young fellows wearing great heavy coats, because the letter carrier didn't produce a pink note, and well-educated young women regarding Anello, Sunko and Daniel Webster as mere trash, when compared with the magnificent young football players or basketball players who call at their houses each evening.

Love blinds the eyes, warps the judgment, spoils the taste, increases the capacity for happiness, takes the sting out of misfortune, softens the disposition, makes hard work worth while and takes the hand-vitch-happy and often crowded homes.

Love is an internally, passionately and mind-melting thing. It is a 1,000,000 volt shock of personal magnetism against which there is no immunity. It prays upon the old and the young alike. It attacks the wretched young society princess and reduces her to a common girl. It strikes the young man in three weeks. It strikes into the bony frame of the hardened old.

It is a grand thing for the heart, skinned, who has just detected nineteen starving families from his basement houses, and transforms him into a slave of the barber, the minister, specialist and the florist in less time than it would take a thousand dollar bill to earn over bits in interest.

Love can be cured, but it isn't worth while. It is too fascinating in its terrible progress. The best treatment is to allow it and mitigate it by means of marriage. There is as much love after marriage as before, but it leaves the brain, where it has been nesting things up, and goes down into the heart, where it belongs.

Love has remodeled nations, revised history, overthrown kings and empires and has made literature worth reading. It is said that love makes the world go round, but it does more than that. It makes the world go round and round and round like another well-known intoxicant. But it is far more alive and business.

## NEW OLIVE HERRING CAPACITY.

Steel Companies Will Add Millions of Pounds to Their Production.

American steel companies are making strenuous efforts to meet the enormous demand for steel products, coming from consumers all over the world. To that end open-hearth steel plants with a rated capacity of approximately 4,000,000 tons have been projected and work is now in progress. Under ordinary conditions it would require at least a year to complete these plants; consequently no important increase in output of available steel can be anticipated until 1917.

## Remarkable Special Offerings in the Shoe Department

The Union Supply Company shoe departments are now filled up with high class spring goods, and we are showing some very remarkable offerings. For women, misses and children we have a great variety of new spring and summer styles—very popular models, very popular prices. We have a very complete line of dress shoes for men and boys—the new spring styles are all coming in. They are being displayed, and many persons are already making purchases. It is a great opportunity now to buy dress shoes. If leather continues to advance it will mean an advance in the prices on shoes within the next thirty days.

We further want to call attention of the workmen to our extensive lines of working shoes. They are almost all made from our own specifications, from styles and materials that have been tried out fully, in water, and under all other conditions. Every pair has our guarantee for good service, and if they don't prove exactly as recommended return them and get your money or exchange for another pair.

## The Business of Forgetting

One of the things we all do is to forget.

Names that were household words yesterday are gone today.

The world only looks to its tomorrow—never its yesterday.

Because people knew your goods and your store a year ago it is no sign they do today.

They forget easily.

You must keep yourself in the public mind by advertising. It is just as important to make old friends remember as it is to win new friends.

Advertising in The Courier does both.

## STEPHENS PARTY ENDS ITS REVIVAL IN THE MILL TOWN

Final Service Will be Held  
in the Tabernacle This  
Evening.

### CLOSING MEETINGS ARE LARGE

Big Crowds at the Sunday Sessions in  
Spite of the Snow and Colds; Farm-  
ers Drive to Town in Sleds and  
Sleighs; Mrs. Harris Lectures.

Special to The Courier.

SCOTTSVILLE, Feb. 14.—The Boos-  
ter club organized by the evan-  
gelical party held a banquet in the  
Presbyterian Church on Saturday and  
the girls marched into the tabernacle  
in a body and occupied the front seats.  
The number of people who attended  
the meeting on Saturday evening  
showed that the interest was keeping  
up until the last meeting as this was  
the largest attendance that there has  
been at any Saturday evening meet-  
ing. On Saturday evening Mrs. H. P.  
Grantham played a well received vi-  
olin solo and Misses Mary Armstrong  
and Verne Keller sang a duet.

Yesterday the Stephens party an-  
nounced their intention of staying  
over and giving the town another day  
of the evangelistic services. On Tues-  
day night Mrs. Harris will give her  
paid lecture in the tabernacle and the  
Monday Musical Club will sing several  
very good selections.

Yesterday there was one of the  
heaviest snows of the season and  
country people came to the tabernacle  
in sleds and sleighs. The attendance  
at each meeting yesterday was a record  
breaker over the former meetings  
despite the weather. Yesterday after-  
noon an unusually good crowd was  
present at the women's meeting in the  
Presbyterian Church, which was one  
of the most impressive services that  
was ever held in Scottdale. Mrs.  
Harris spoke on "Loyalty to Christ,"  
and Mrs. G. P. Kelly and Miss Nair  
sang a duet.

Yesterday afternoon at the taber-  
nacle Rev. Stephens talked on "Women"  
and gave a very plain sermon, telling  
the men that had his name on a club  
book that they were better get it off  
the church record or keep it on the  
church record and cut the clubs. In  
more than the nation. People have  
very liberally at all of the meetings  
yesterday. After tonight the evan-  
gelists will go to their respective homes  
and on February 22 will open at Can-  
lac, Mich.

ANNOUNCEMENT.

## SYRUP OF FIGS FOR CROSS, SICK FEVERISH CHILD

If Little Stomach is Sour,  
Liver Torpid or Bowels  
Clogged.

Mothers can rest easy after giving  
"California Syrup of Figs," because in  
a few hours all the clogged-up waste,  
sour bile and fermenting food gently  
move out of the bowels, and you have  
a well, playful child again. Children  
simply will not take the time from  
play to empty their bowels, and they  
become listless, peevish, and their sleep  
is disturbed and stomach disordered.  
When cross, feverish, restless, or if  
tongue is coated, then give this de-  
licious "Fruit Laxative." Children love  
it, and it can not cause injury. No  
difference what ails your little one—  
stomachache, bad breath, constipation,  
a gentle "fruit cleansing" should al-  
ways be the first treatment given. Full  
directions for babies, children of all  
ages and grown-ups are printed on  
each bottle.  
Beware of counterfeit cheap syrups.  
Ask your druggist for a 60-cent bottle  
look carefully and see that it is made  
by the "California Fig Syrup Com-  
pany." We make no smaller size.  
Send back with contempt any other  
syrup. Adv.

## A smokeless city guaranteed

## IDEAL SMOKELESS Down Draft Boilers

—burn any and all soft coals without smoke

These remarkable boilers are eliminating the Smoke Evil in over 400  
smoke-plagued cities and towns where they heat largest apartments,  
churches, stores, business blocks, schools, public and private institu-  
tions. The IDEAL double grate method of burning makes possible  
the use of the cheaper highly volatile soft coals. The result is 100%  
available heat—and a smokeless chimney!

The savings shown from owners' coal bills are from 20% to 50%! All fuel  
waste is stopped! All the rich heat-producing gases are completely burned  
with full heat production before smoke has any chance to form. Can be installed  
in any old or new building because made of cast-iron sections easily carried  
through doorways. Never wear out or corrode, nor do they require expen-  
sive soon-crumbing brick covering as do old-fashioned steel plate and tube boilers.

Let us show you these Boilers in operation. Let us prove what we say by submitting data of  
results and owners' coal bills. Let us refer you to your City Smoke Inspectors who know the  
efficient work of IDEAL SMOKELESS Down Draft Boilers in keeping the city smokeless. We  
stand back of these boilers with our resources and reputation, and guarantee them for the safe  
solution of any large heating problem where lowest-priced heating service and not smoke is desired.

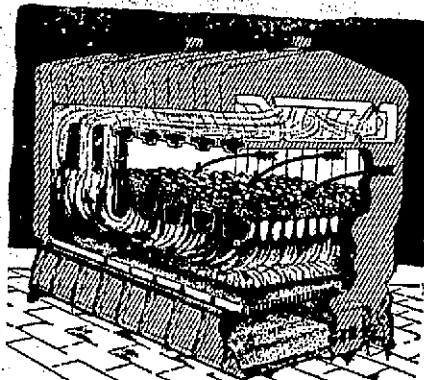

Phone, call or write us today, and let us talk it over for your OLD or  
new building. Prices are now attractive, so act at once.

## Safe Home Remedy for Skin Troubles

Acne, ringworm, and other itching,  
burning skin eruptions are so easily  
made worse by improper treatment  
that one has to be  
very careful. There is  
one method, however,  
that you need never  
hesitate to use, even  
on a baby's face. It is  
Resinol—That is the res-  
inol treatment. Resinol  
is a Baltimore doctor, put up in the  
form of resinol ointment, put up in the  
soap. This proved so remarkably suc-  
cessful, that thousands of other physi-  
cians have prescribed it constantly for  
over twenty years.

Generally, resinol stops itching at  
once, and heals the eruption quickly  
and at little cost. Resinol ointment  
and Resinol soap can be bought at any  
druggist's.

Resinol Soap is not only unusually  
cleansing and softening, but its regular  
use gives to the skin and hair that  
natural beauty of perfect health which  
cosmetics can only imitate.

When you have a severe headache,  
accompanied by a coated tongue,  
nausea, vomiting of food, constipation, torpid  
liver, vomiting of partly digested food  
and then bile, you may know that you  
have a severe bilious attack. While  
you may be quite sick there is much  
consolation in knowing that relief may  
be had by taking three of Chamber-  
lain's Tablets. They are prompt and  
effective. Obtainable everywhere. Adv.

Some West Virginia Coal Left.  
It is estimated that the soft coal  
deposits of West Virginia comprise  
174,000,000,000 tons of minable coal.  
If production should be increased to  
100,000,000 tons annually, or 30%  
over present rate, the deposits would  
last 17 centuries.

## PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them  
Off With Dr. Edwards'  
Olive Tablets

A pimply face will not embarrass you  
much longer if you use a package of Dr.  
Edwards' Olive Tablets. The skin should  
be so clear and you have taken the  
tablets a few nights.  
Close the blood, the bowels and the  
liver with Olive Tablets.  
Dr. Edwards' Olive Tablets are the suc-  
cessful substitute for calomel—there's  
never any sickness or pain after taking  
them.  
Dr. Edwards' Olive Tablets do that  
which calomel does and just as effectively,  
but their action is gentle and safe in-  
stead of severe and irritating.  
No one who takes Olive Tablets is ever  
cured with a dark brown taste, a bad  
breath, a dull, listless "no good" feeling,  
constipation, torpid liver, bad disposition  
or pimply face.  
Dr. Edwards' Olive Tablets are a purely  
vegetable compound mixed with olive oil;  
you will know them by their olive color.  
Dr. Edwards spent years among pa-  
tients afflicted with liver and bowel com-

Community.

### THREE IN FAMILY ALSO ILL

Milton Camp, Aged Nine, is Dead, and  
the Other Three are in a Serious  
Condition. Sons of Veterans Cel-  
brate Memory of Lincoln, Notes.

Special to The Courier.  
MOUNT PLEASANT, Feb. 14.—  
Milton Camp, the 9 year old son of  
Mr. and Mrs. Harry Campbell,  
died at his residence, 1000 avenue  
home yesterday from measles and  
pneumonia. Three other children in  
the family have measles and are  
extremely ill. From almost 85 cases  
in town this is the first one that proved  
fatal. Funeral services will be held  
this afternoon and interment will be  
made in the Fairview cemetery.

Tom Demore died in the hospital  
yesterday from pneumonia. He was  
taken to his Silver street home. Fun-  
eral services will be held Tuesday  
morning at 10 o'clock and interment  
in St. Joseph's cemetery.

The Sons of Veterans entertained  
the G. A. R. and their friends with a  
Lincoln celebration in the I. O. O. F.  
Hall on Friday evening. Mr. Gill of  
Greensburg and Rev. Lytle of this  
place made addresses. Refreshments  
were served.

The educational meeting of the  
teachers, directors and patrons of  
Mount Pleasant, Fairview, Rose  
Huntingdon township and Mount  
Pleasant township, was attended by  
three hundred persons and was a suc-  
cess. Splendid interest was manifested  
in the meeting. The program was  
well carried out. At the hour for a  
community lunch was served and the  
local high school orchestra furnished  
excellent music under the supervision  
of Prof. J. Hunter Gables.

### HIGH SCHOOL GIRL

Iron-Down, Weak and Nervous—Made  
Strong by Vinol.

For the benefit of Conneltsville  
school girls who overwork and get into  
highly nervous, weak and nervous  
condition, we publish this letter from  
Therese Copier, of North Worth, Tex.:  
"I go to the high school and take  
music lessons, and am very busy  
week and very nervous, so I could not  
do anything. I would shake all over  
and could have screamed at times, and  
was really unable to keep on my  
studies. Mother purchased a bottle of  
Vinol for me and within a week I was  
better, and in two weeks I had gained  
five pounds and felt strong."

It is the curative strengthening el-  
ements of the true cod liver extract,  
aided by the blood-making, restor-  
ing effect of pure cod liver oil and  
beef peptone, contained in Vinol,  
which made it so successful in build-  
ing up health and strength and over-  
coming the nervous condition of Miss  
Copier, and we ask every school girl  
in Conneltsville who is in a like con-  
dition to try Vinol, on our guarantee to  
return their money if it fails to benefit.

### At the Theatres

#### SOISSON THEATRE.

"THIS TRYING PLACE."—The  
Jolly comedian, Charles Chaplin comes  
to the Soisson Theatre today in the  
two reel screener, "This Trying  
Place." It is a riot and no mistake.  
Robert Henley and Jane Novak are  
the features in this thrilling picture  
drama. "Crash." It is the fifth epi-  
sode and is called "Grinding Life-  
Down." A new actress, Constance  
Johnson appears today in the two  
reel emotional drama, "Her Inner Soul." It  
is the tale of a social butterfly and her  
experiences with her lover, Gale Henry  
is the star in the three comedy, "The  
Green's Mistake." It is a joyous tale  
of the jealousies of newlyweds and its  
satisfactory finish. The tiny little  
player is in the Nester comedy, "The  
Dance of the Shivers." Tomorrow,  
the famous English actor, Albert Chevalier,  
appears in the five reel coster  
drama, "My Old Dutch." The supreme  
dramatic offer of the season, Albert  
Chevalier's world renowned song, "My  
Old Dutch," has been retitled into  
a five part photoplay by the London  
Turner Film, with Mr. Chevalier in  
the leading role and Florence  
Turner playing opposite him. It is a

great pathetic drama written around  
this most famous song, and there is  
plenty of clean and wholesome comedy  
dispersed throughout the five reels.  
This photoplay was considered so good  
that the Universal Film Manufacturing  
Company purchased it outright and  
will present it at the Soisson Theatre  
tomorrow.

#### ARCADE THEATRE.

"DEATHLOCK."—Neil Duroux acts  
as a decoy for her adopted father, a  
notorious gambler and the two are  
caught cheating at cards on board a  
steamer going to the Klondike. Their  
victim is a young man named Ford  
Worthing. As shooting means death,  
Neil, to save her father, sets fire to the  
boat and the two escape in the con-  
fusion as the steamer is beached. Later  
they meet Ford at Dawson where her  
father attempts to steal the rights of  
a valuable mine from Dale Ward, a  
widow. There is an exciting race on  
dog sleds across the snow-covered  
Alaskan wastes. Ford is outwitted by  
Duroux, fastened to a tree by the fatal  
"Deathlock" and left to the mercy of  
the wolves. Duroux is attacked by  
snow-madness and killed by one of his  
dogs, whom he has mistreated, and  
Ford is rescued by Neil, who has braved  
the journey alone on her kiks.  
Naturally the two fall in love with  
each other. Ford saves the mine for  
the widow, who in gratitude, makes  
him and her own.

#### GLOBE THEATRE.

"SECRET LOVE."—John Ware in  
"Secret Love," the second Bluebird  
feature to be released, is appearing to-  
day at the Globe. "Secret Love" is a  
thrilling picture founded upon  
Frances Hodgson Burnett's "The Lass  
of Lowlands." It is a great production.

SCENE FROM "THE DEATH LOCK"

In every way, and presents Miss Ware  
in a character to which she has seldom  
before been cast. The picture is a  
thriller of the most gripping kind.  
As a piece of mechanical enter-  
tainment it excels first. It is diffi-  
cult to realize that this production  
was made in America. The picture is  
as good as any of the best made in  
England in which the story is told. The atmosphere and  
setting are absolutely accurate and  
colorful and it is almost incredible  
that such a picture could be con-  
structed. They are proof positive of  
extraordinary facilities which Uni-  
versal City affords for this kind of picture.  
Miss Ware is supported by Harry Carey,  
Jack Curtis and Edna Hall, and the  
physical combat between Curtis and  
Carey is one of the most exciting and  
realistic stage fights which has ever  
been produced in pictures. Tuesday  
Victor Moore will be seen in "The  
Maiden Out West." Friday  
Dustin Farnum will be featured in  
"The Gentleman from Indiana."

## FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonful for  
50 Cents.

When in need of a remedy for the  
treatment of Bronchitis, Whooping Cough,  
Croup, Stomach Cough, Colds or  
Hoarseness, don't simply ask the  
druggist for a "Cough Medicine" but  
get the best. Tell him to give you  
Schiffmann's New Concentrated Ex-  
pectorant. Instead of being induced  
into buying something else purely on  
the strength of some testimonials or  
the exaggerated claims of the manu-  
facturer. This same "Money Back"  
guarantee goes with every bottle of  
this remedy sold by the Lehigh Valley  
Drug Co. as does with Dr. Schiff-  
mann's famous Asthmator and your  
money will be refunded, if it does not  
give perfect satisfaction. In fact even  
more, if it is not found the best rem-  
edy ever used for these affections. In  
buying this new remedy, besides ac-  
quiring the guarantee these druggists  
give, it will likewise be found the

most economical to use, for the rea-  
son that one bottle (50 cents) worth  
makes a full course (128 teaspoonfuls)  
of the most excellent cough medicine,  
after being mixed at home with one  
pint of granulated sugar and one-half  
pint of water. One bottle will prob-  
ably therefore, be sufficient for a whole  
family's supply the entire winter,  
while the same quantity of the old,  
ordinary, candy-made kind of medi-  
cine would cost between \$2 and \$3. It  
is prepared from strictly harmless  
plants, containing absolutely no chloro-  
form, opium, morphine or any other  
narcotic or injurious drugs as do most  
cough remedies, and it can therefore  
be given to children with perfect  
safety. It is pleasant to take, and  
children are fond of it. Absolutely  
no risk whatever is run in buying this  
remedy under the above positive guar-  
antee. R. J. Schiffmann, Prop., St.  
Paul, Minn.—Adv.

The Best Recommendation.  
The strongest recommendation any  
article may receive is a favorable word  
from the user. It is the recommen-  
dations of those who have used it that  
make Chamberlain's Cough Remedy so  
popular. Mrs. Amanda Oberhart,  
Waynesville, Ohio, writes, "Chamber-

TREATMENT TUESDAY, THURSDAY AND SATURDAY.

THURSPERIALITY.  
Dr. Gentry is a specialist in the treat-  
ment of the throat—not because he  
claims to be, but because a lifetime of  
special study, special training,  
special training, special experience and  
constant application to the special line  
of work have made him master of the  
special diseases which he treats and  
cures.

CHRONIC AND ACUTE.  
Because he is a true specialist, through  
special knowledge, experience  
and training obtained by years of hard  
work, study and his equipped him-  
self with all the latest and most val-  
uable products of modern medicine, he  
cures all the acute and chronic throat  
diseases (many of them after numerous  
other doctors have failed).

CHRONIC AND ACUTE.  
Acute and chronic Catarrh of the  
nose and air passages of the head,  
sinusitis, hay fever, and other growth in the  
nasal passages, treated without sur-  
gical operations by this treatment  
alone.

CHRONIC AND ACUTE.  
Catarrhal sore throat,  
acute and chronic pharyngitis, en-  
larged tonsils and palatine tonsils,  
loss of voice, paralysis of the vocal  
cords and all forms of throat trouble.

CHRONIC AND ACUTE.  
When Catarrh is allowed  
to continue unopposed for a time in the  
throat, it is liable at any time  
to extend to the quaternary tubes the  
acute air tubes leading from the upper  
part of the throat into the lungs, and  
set an entrance of the lungs or mid-  
dle ear, which is the cause of 95 per  
cent of all deafness in the world. The  
symptoms are a feeling that the ears  
close up on swallowing or blowing the  
nose. A sense of tightness or fullness  
in the ears, and a feeling that the ears  
are not doing their work.

CHRONIC AND ACUTE.  
Catarrh of the lungs, chronic  
bronchitis, acute and chronic  
asthma, and other diseases of the  
lungs, treated without surgical opera-  
tions by this treatment alone.

CHRONIC AND ACUTE.  
Catarrh of the bladder, acute and  
chronic cystitis, and other diseases  
of the bladder, treated without sur-  
gical operations by this treatment  
alone.

WHY SUFFER WITH BACKACHE,

Letter Tells of Long Looked-for Prescription.

Dear Readers—I am making a per-  
sonal appeal to those of you who  
are bothered with kidney and bladder  
trouble, that you give up the use of  
harsh salts or alcohol, and try the  
cures and in their place take a short  
treatment of "Anurie." I have taken  
many of Dr. Pierce's medicines for the  
past twenty-five years with good results.  
I suffered with kidney trouble for some  
years. I recently heard of the new  
discovery of Doctor Pierce, namely, his  
"Anurie," and I at once began using  
same. I am completely cured of my  
kidney trouble. I recommend heartily  
all sufferers to Dr. Pierce, for what he  
has done for me cannot be estimated too  
highly. A doctor pronounced me a well  
preserved woman for my age, all due to  
believe, to Dr. Pierce's medical aid.

Yours very truly,  
MRS. MARGARET MILLER.

### PETEY DINK—Petey Wouldn't Take a Chance On the Same Pond With the Big Mr. and Mrs. Little.

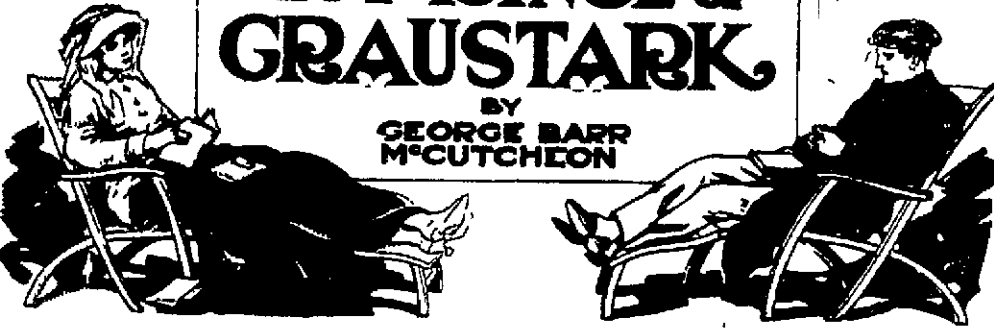

By C. A. Voight.

# THE PRINCE OF GRAUSTARK

BY  
GEORGE BARR  
M'CUTCHEON

Copyright, 1914, by Dodd, Mead and Company.

The following day was as unlike its predecessor as black is like white. During the night the smooth gray pond had been transformed into a turbulent, storm thrashed ocean. Only the hardest of the passengers ventured on deck.

R. Schmidt, being a good sailor and a hardy young chap, albeit a prince of royal blood, was abroad early. He took two turns about the deck, and each time as he passed the spot he sent a covert glance into the corner where Miss Gullie's chair was standing. Of course he did not expect to find her there in weather like this, but—well, he looked, and that is the end of the argument.

Quinn and Dank were hopelessly bedridden, so to speak. They were very disagreeable, slow and unpleasant, and somehow he felt that they hated their cheerful, happy days.

At last the young man battled his way down the deck and soon found himself in the well protected corner. A half dozen unoccupied chairs were cluttered about, having been abandoned by persons who overestimated their hardiness. One of the stewards was engaged in stacking them up and making them fast.

Miss Gullie's chair and that of Mrs. Gaston were stanchly fastened down and their rugs were in place. R. Schmidt experienced an exquisite sense of pleasure. Here was a perfect exemplification of that much abused thing known as circumstantial evidence. She contemplated coming on deck. So he had his chair put in place, miled for his rug, shrugged his chin down into the collar of his thick ulster and sat down to wait.

She literally was blown into his presence. He sprang to his feet to check her swift approach before she could be dashed against the wall or upon the heap of chairs in the corner. She uttered an excited little shriek as she came down upon him, and he found his ready arms clanking about her shoulders.

"Oh, goodness!" she gasped, with what little breath she had left, and then began to laugh as she freed herself in confusion. A very pretty confusion, he recalled later on, after he had recovered to some extent from the effects of an exceedingly severe bump on the back of his head. "How a 'ward!"

"Not at all," he proclaimed, retaining a grip on one of her arms until the ship showed some signs of resuming its way eastward instead of downward.

"I am sure it must have hurt dreadfully," she cried. "Nothing hurts worse than a bump. It seemed as though you must have splintered the wall."

"I have a singularly hard head," said he, and forthwith felt of the back of it.

"Will you please stand ready to receive boarders? My maid is following me, poor little, and can't afford to have her smashed to pieces. Here she is!"

Quite a pretty maid, with wide, horrified eyes and a pale green complexion came bustling around the corner. It, Schmidt, albeit a prince, received her with open arms.

"Merci, m'leuri!" she squealed and added something in muffled French that strangely reminded him of what Hobbs had said in English. Then she deposited an armful of rugs and magazines at Robin's feet and clutched wildly at a post actually some ten feet away, but which appeared to be coming toward her. "Mon dieu! Mon dieu!"

"You may go back to bed, Marie," cried her mistress in some haste.

He was vastly exhilarated. She regarded him with eyes that sparkled and belied the unamiable nature of her reply.

"The poor lady is where she is not at all likely to be annoyed," Mr. Schmidt said.

Then she took up a magazine and coolly began to run through the pages. He waited for a moment, considerably annoyed, and then said, "Oh, in a very unfriendly manner. She found her place in the magazine, assumed a more comfortable position and with noteworthy resolution set about reading as if her life depended upon it."

CHAPTER X  
A Prince's Heart at Stake.

THE prince sat down, pulled the rug up to his chin and stared out at the great, heaving billows. Suddenly remembering another injury, he felt once more of the back of his head.

"My love!" he exclaimed. "There is a jump there."

"I can't hear you," she said, allowing the magazine to drop into her lap, but keeping her place carefully marked with one of her fingers.

"It's the way the wind blows," he explained.

"Easily remedied," said he. "I'll move into Mrs. Gaston's chair if you think it will help any."

"Do!" she said promptly. "You will not disturb me in the least—unless you talk." She resumed her reading, half a page above the finger tip.

He moved over and arranged himself comfortably, snugly in Mrs. Gaston's chair. Their elbows almost met. He was prepared to be very patient. For a long time she continued to read, her warm, rosy cheek half averted, her eyes applied to their task with irritating constancy. He did not despair. Some wise person once had told him that it was only necessary to give a woman sufficient time and she would be the one to despair.

A few passengers possessed of proud sea legs staggered past the snug couple on their ridiculous rounds of the ship. If they thought of Miss Gullie and R. Schmidt at all it was with the scorn that is usually devoted to youth at its very best. There could be no doubt in the passing mind that these two were sweethearts who managed to thrive on the smallest of comforts.

At last his patience was rewarded. She lowered the magazine and stifled a yawn—but not a real one.

"I have you read it?" she inquired composedly.

"A part of it," he said. "Over your shoulder."

"Is that considered polite in Vienna?"

"If you only know what a bump I've got on the back of my head you wouldn't be so ungracious," he said. "I couldn't possibly know, could I?"

"I fanned forward and indicated the spot on the back of his head, then removing his cap. She laughed nervously, and then gently rubbed her fingers over the thick hair.

"There is a dreadful lump!" she exclaimed. "Oh, how sorry I am! Do—do you feel that or—or—I mean, is it very painful?"

"Not now," he replied, replacing his cap and favoring her with his most engaging smile.

He was being pumped by his fair companion. Indeed a certain insistent note had crept into her voice, and her eyes were searching his with an intensity that had not appeared in them until now.

"Have you seen him?"

"The prince?"

"Yes. What is he like?"

"I've seen pictures of him," he equivocated. "Rather nice looking, I should say."

"Of course he is like all foreign noblemen and will keep at the Blithers millions if he gets the chance. I sometimes feel sorry for the poor wretches."

"There was more scorn than pity in the way she said it, how deeply and how velvet eyes were averted. He longed to defend himself, in the third person, but could not do so for very strong and obvious reasons. He ever of declaring that foreign noble men are not always as black as they are painted. And then, for a very excellent reason, he contrived to change the subject by asking where she was going on the continent.

"I may go to Vienna," she said with a smile that served to puzzle rather than to delight him. He was more than ever convinced that she was playing with him. But pray do not look so gloomy, Mr. Schmidt, I shall not make any demands upon your time while I am there. You may."

"I am quite sure of that," he interrupted, with his ready smile. "You see, I am a portion of no consequence in Vienna, while you—Ah, well, as an American girl you will be hobnobbing with the nobility while the humble Schmidt sits afar off and marvels at the kindness of a fate that betell him in the middle of the Atlantic ocean, and you curlew the fate that makes him unworthy of the slightest notice from the afore said American girl. For I dreamy, Miss Gullie you, you shall be to Vienna as ready to jump at it!"

"That really isn't fair, Mr. Schmidt," she protested, flushing. "Why should you and I quarrel over a condition that cannot apply to either of us?"

"You are a nobleman, and I am not a title seeking American girl. So why all this beautiful irony?"

"It only remains for me to humbly beg your pardon and to add that the you come to Vienna my every waking hour shall be devoted to the pleasure of—"

"I am sorry I mentioned it, Mr. Schmidt," she interrupted coldly. "You may rest easy, for I shall not keep you waiting for a single hour. Besides, I may not go to Vienna at all. I am sure you would like Vienna, wouldn't you?"

"I have been there with my parents, but it was a long time ago. I once saw the emperor, and often have I seen the wonderful Prince Lichtenstein."

"If you traveled extensively in Europe?"

"She was smiling once more. "I don't know what you would consider extensively," she said. "I was educated in Paris. I have spent innumerable winters in Rome and quite a number of summers in Scotland, England, Switzerland, Germany."

"I know who you are!" he cried out enthusiastically. To his amazement a startled expression leaped into her eyes. "You are traveling under an assumed name?" She remained perfectly still, watching him with an anxious smile on her lips. "You think I rather like you, Mr. Schmidt," she said, with unexpected candor.

"Oh, I fancy I'm not at all bad," said he, after a momentary stare of astonishment. "I am especially good in rough weather," he went on, trying to forget that he was a prince of the royal blood, a rather difficult matter when one stops to consider he was in the habit of hearing people say that they rather liked him.

"Do your friends come from Vienna?" she inquired abruptly.

"Yes," he said, and then saved his face as usual by adding under his breath, "but they don't live there." It was not in him to lie outright, hence the hasty way of appeasing his conscience.

"You are very interesting looking men, especially the younger. I can't remember when I have seen a more attractive man."

"He is a splendid chap," exclaimed Robin, with genuine enthusiasm. "I am very fond of Dank."

She was silent for a moment. Something had slipped, and she was rather kind of it.

"Do you like New York?" she asked. "I haven't been there, but I know a great many delightful people there, Miss Gullie. You say you do not know the Blithers family? Mr. Blithers is a rare old bird."

"Isn't there some talk of his daughter being engaged to the Prince of Graustark?"

He felt that his ears were red. "The newspapers hinted at something of the sort, I believe." He was suddenly

possessed by the curious notion that he was being pumped by his fair companion. Indeed a certain insistent note had crept into her voice, and her eyes were searching his with an intensity that had not appeared in them until now.

"Have you seen him?"

"The prince?"

"Yes. What is he like?"

## CITY DANGERS IN THE COUNTRY

The houses in which we live, according to all students of social conditions have a decided effect upon our mental, moral and physical condition.

The Bureau of Housing of the State Department of Health under the direction of Commissioner of Health Samuel G. Dixon, has been engaged in the work of improving the living conditions in certain sections of the Commonwealth with the idea of evolving conditions without causing a revolution.

The above picture shows that even in suburban districts, where there would seem to be sufficient sunlight and fresh air for all conditions exist which practically duplicate the worst overcrowding of our cities. This is the bedroom of a family of four—the father, mother and one child occupy the double bed and the other little girl the cot on which she is seated.

It was found on examination that the father was suffering from tuberculosis, and in the conditions under which they were living it was in all probability only a question of time until the entire family became infected and dependent.

There were two rooms in the house, the one above and a dilapidated kitchen. Two windows gave all the light and air that they received. There was but one chair in the household, that in the foreground and when the picture of the kitchen was taken by the Department's photographer, the chair was moved by the housewife to a prominent position in the foreground.

As a result of the State Department of Health's activities this family was moved into a four-room house and the father placed under treatment at a State Tuberculosis Dispensary. In this improved atmosphere and under the supervision of the Dispensary nurse it is hoped that these changed surroundings will make it possible for the father to wage a more successful fight for the recovery of his health and will prevent the remainder of the family becoming a charge upon the public through contracting the disease.

"How can you be so unfeeling?" moaned the limp lady.

"This R. Schmidt is Prince Robin of Graustark," cried the girl excitedly. "I am sure of it—just as sure as can be."

Mrs. Gaston's eyes were popping, not with amazement, but alarm.

"Do lie down, child," she whimpered. "Marie! The sleeping powder at once! Do!"

"Oh, I'm not mad," cried the girl. "Now listen to me and I'll tell you why I believe—yes, actually believe him to be the!"

"Marie do you hear me?"

"Miss Gullie, she shot, her vigorously. "Wake up! It isn't a nightmare. Now listen!"

CHAPTER XI  
The Lieutenant Receives Orders.

THE next day brought not only an agreeable change in the weather, but a most surprising alteration in the manner of Mrs. Gaston whose attitude toward R. Schmidt and his friends had been anything but amiable up to the hour of Miss Gullie's discovery. The excellent lady recovered very quickly from her disposition, became positively polite to the hitherto repugnant Mr. Schmidt. She melted so abruptly and so completely that the young man was vaguely troubled. He began to wonder if his inauspicious had been pierced, so to speak.

He forbore asking when Miss Gullie might be expected to appear on deck for her constitutional but she volunteered the information which was neither vague nor yet definite. In fact she said that Miss Gullie would be up soon.

Now it is necessary to relate that Miss Gullie had been particularly firm in her commitment to Mrs. Gaston. The first place, Mrs. Gaston was often to understand that she was not to breathe it to a soul that R. Schmidt was not R. Schmidt, and she was not to betray what he had said or sign that he was suspected of being the Prince of Graustark. Moreover the ordering Miss Gullie laid great stress upon an other command—R. Schmidt was not to know that she was not Miss Gullie but some one else altogether.

You're right, my dear," exclaimed Mrs. Gaston in an excited whisper as she burst in upon her fair companion, who was having coffee and toast in her parlor. "The maid was waiting to do up her mistress's hair, and the young lady herself was sitting and charming in spite of the fact that it was not already 'done up'."

"He is—or—he is just what you think."

Good heavens, you haven't gone and done it have you?" cried the girl a shuddering with a piece of toast halfway to her lips.

"Gone and done it?"

"You haven't been blabbing, have you?"

"How can you say that to me?" Am I not to be trusted? Am I so weak and—"

Don't you ever old dear! Enough now. But now tell me—absolutely—just what you've been up to," and Mrs. Gaston repeated every word of the conversation she had had with R. Schmidt, proving absolutely nothing but stoutly maintaining that her intuition was completely to be depended upon.

"And, oh," she whispered in conclusion, "wouldn't it be perfectly wonderful if you should fall in love with each other?"

"Don't be silly!"

But you have said that if he should fall in love with you for yourself and not because—"

I have also said that I will not marry any man—prince, duke, king or anything else—unless I am in love with him. Don't overlook that, please."

### True Secret of Keeping Youthful Looking

(The Beauty Secret)  
The real secret of keeping young looking and beautiful is a well-known hygienic use to keep the liver and bowels normally active. Without these organs, poisonous waste products remain in the system, poisoning the blood and looking in various organs, tissues, joints. One becomes flabby, nervous, mentally sluggish, dull-eyed, wrinkled and yellow of face.

But to get liver and bowels working as they ought without producing after-effects is the problem. Fortunately, there is a prescription of unquestioned merit which may from be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or the which has been called "vegetable castor" because of its effectiveness. It is so non-drawing on mucous organs that it causes no constipation and their users are not followed by weakness or exhaustion. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the system, restore the Senreco tablets, which may be procured from any drugstore—a dime's worth will promptly prove a revelation to any constipated, liver-troubled person.

### The Constipation Cure

Constipation—clogged bowels—causes pain and sickness; 96 per cent of all ailments, say the experts, result from it. Senreco Laxatives bring quick relief. All vegetables—contain no cathartic. Senreco does for a dime at corner drug stores. Physicians' sample free, upon request. If you mention this advertisement, the Senreco Remedies Co., 800 Madison Ave., Corvinton, Ky.
